Doors generously provided by

Automatic Door Opener Requests

TIL's automatic door opener program assists individuals with high level disabilities with electromechanical access to their home door when they cannot open or close it on their own.

People requesting these services must be a registered TIL client or must meet the eligibility requirements for TIL services. The applicant must be able to demonstrate that they cannot open the door in question without assistance.

The candidate must be prepared to stay at the residence where the door opener is being installed for up to five years or pay the move fee.

TIL can only provide door openers if the funds are available. In some cases, individual applicants may be asked to provide some partial funding and/or be placed on a waiting list.

TIL will not provide door openers designed to access main building doors, such as in apartments or condominiums owned or operated by others. Only those requiring access to suite doors or single family homes are eligible to apply.

Applicants for this service that rent or lease their home must obtain permission from the owners of the building before any installation relating to doors can take place.

A potential candidate for an automatic door opener is any individual who has the desire to maximize independence via personal control over their immediate environment. The program is not designed to provide access for applicants who are able to physically open doors independently. Nor is the program designed to solely facilitate entry for visitors and personal attendants.

An Occupational Therapist or others assisting in this process should be prepared to act as a resource person who will inform TIL of any change in status and be available to assist with the installation and/or follow-up. All system users are asked to be part of an on-going evaluation and education process.

Our program includes assessment, installation, repairs, and follow-up throughout the entire province. Because of this there may be some delay before we can provide the service you need. If any changes occur after the completion of this form, please let us know. We look forward to being of service to you.

Do you have any environmental control devices at present? **Yes ☐** **No ☐**

If yes, please describe:_____

_____

_____

_____

_____

_____

How do you open the door in question at present? _____

_____

_____

_____

Where in your dwelling is the door in question? _____

_____

_____

Can you or your family contribute towards the cost of the door opener? Yes ☐ No ☐

What is your living situation (e.g. alone, with family, in an apartment, in a house, in a facility, etc.)?
