What alternatives to an automatic door opener have you considered? (smart door lock, modified door handle, etc)

\*If you are deemed ineligible for a TIL door opener, a TIL representative will be in contact to assist you in finding an alternative solution to your door opener challenges.

**APPLICATION SUBMITTED BY** (only needs to be submitted by one of the following options):

<b>Applicant</b>	By entering my email address, and submitting this application using the same email address, I agree with all conditions outlined below. EMAIL ADDRESS:
<b>Referring Therapist</b>	By entering my email address, and submitting this application using the same email address, I confirm that I have discussed with the applicant all conditions outlined below, and the applicant has agreed with all conditions outlined below. EMAIL ADDRESS:

**APPLICATION CONDITIONS**

- I understand that, due to the complexities of having a door opener installed, along with required consent forms, there may be a delay in getting a door opener installed. A TIL representative will assist me in gathering all required information, but should my information change during the application process, I must immediately notify Technology For Living of the changes that affect my application.
- I understand that only **one** door opener will be provided to me as part of the TIL Door Opener program.
- I understand that if I should move residences, I will need to pay to have the door opener removed and installed in my new residence. (before applying, TIL recommends you reside in a home you foresee yourself living in for many years, as door opener moves can be expensive).
- I understand that, after the **one** year warranty period, I am responsible for all door opener repair costs moving forward. (TIL does not cover costs associated with the repair of door openers) Also, I understand that warranty does not cover damage associated with neglect of the door opener...these costs would need to be covered by myself.
- I understand that if I rent, lease, own a strata lot, or live in a facility, I must receive written approval from the building manager or strata council prior to door opener installation. (A TIL representative will guide you through the information required from building managers and strata councils.)
- I consent to TIL sharing my contact information (name, telephone number, email and address) with the company that may be installing an automatic door and with an electrician who may be performing the electrical work to power the door. I agree to proceed prior to installation and to be contacted in association with this project when required.
- I agree, after installation of the door opener (if approved), to provide TIL with a quote regarding the affect the automatic door opener has on my independence within my home. (pictures greatly appreciated)

**APPLICATION SUBMISSION AND NEXT STEPS**

Upon completion of this application addendum, please submit, email, fax, or mail to:
